

# Task 3 Submission

Name: A. Siddiqui

Roll No: 00200937

## PART A — Research Answers

### 1. Improvements in Gemini 3.0:

Redesigned architecture, faster reasoning, long context memory, reduced hallucinations, and stronger code & multimodal accuracy.

### 2. Coding & Automation Workflow Improvements:

Better debugging, multi file code understanding, faster automation, and deeper integration with developer tools.

### 3. Multimodal Understanding Improvements:

Handles text, images, diagrams, audio, video with higher accuracy and real time reasoning.

### 4. Developer Tools Introduced:

Gemini Code Assist and Google AI Studio (updated).
